Enrolment Deferment, Suspension and Cancellation

An international student may have their enrolment deferred, suspended or cancelled under the following circumstances, as outlined in the *International Student Enrolment Deferment, Suspension or Cancellation Policy*. In the event that a student's enrolment is deferred, suspended or cancelled, the student will need to contact the Department of Immigration and Border Protection immediately to seek advice on the potential impact to their student visa.

For the purposes of enrolment deferment and suspension, students will need to demonstrate that a deferment or suspension of their studies is due to compassionate or compelling circumstances.

Compassionate and Compelling Circumstances

Compassionate or compelling circumstances are generally those beyond the control of the student and which have an impact upon the student's course progress or student well-being. These could include, but are not limited to:

- serious illness or injury, where a medical certificate states that the student was unable to attend classes;
- bereavement of close family members such as parents or grandparents (where possible a death certificate should be provided);
- major political upheaval or natural disaster in the home country requiring emergency travel and this has impacted on the student's studies; or
- a traumatic experience which could include:
 - involvement in, or witnessing of a serious accident; or
 - witnessing or being the victim of a serious crime, and this has impacted on the student (these cases should be supported by police or psychologists' reports)
 - where the registered provider was unable to offer a pre-requisite unit; or
 - Inability to begin studying on the course commencement date due to delay in receiving a student visa

Deferring Enrolment

A student can request to defer or temporarily delay their studies before the commencement of the course. This process can also be initiated by JMI. Any student wanting to defer the commencement of their studies must notify JMI in writing prior to the commencement of the course. JMI will only approve deferment if a student can demonstrate that the reason for deferment is due to compassionate or compelling circumstances.

Suspending Enrolment

Either JMI or the student can suspend or temporarily postpone a student's enrolment.

Student-initiated Suspension

Any student wanting to suspend their studies will need to apply in writing to JMI. A student can only suspend or temporarily postpone their enrolment for compassionate or compelling circumstances as defined. Weddings, cultural and religious activities are not acceptable reasons for suspension. Any suspension of studies are to be strictly in keeping with the reason for it.

JMI-initiated Suspension

JMI has the right to suspend a student's enrolment in the following circumstances:

- A breach of the *Code of Conduct*

- Failure to pay fees as per the *International Student Fee Policy*
- Failure to meet attendance and course progression requirements as per the *International Student at Risk and Course Progression Policy*

In the event that JMI suspends a student's enrolment due to the above reasons, JMI will notify the student of their intention to suspend enrolment and the reasons for suspension. Students will have the right to appeal the decision as per the *Student Grievance Handling Policy and Procedure*. Students will have 20 working days from the day of notification to appeal.

Cancelling Enrolment

In extreme circumstances, JMI has the right to cancel a student's enrolment. Cancelling a student enrolment means the student is formally no longer a student of JMI. Reasons for the cancellation of a student's enrolment are:

- A serious breach of the *Code of Conduct*
- Failure to pay fees as per the *International Student Fee Policy*
- Failure to meet attendance and course progression requirements as per the *International Student at Risk and Course Progression Policy*

In the event that JMI cancels a student's enrolment due to the above reasons, JMI will notify the student of their intention to cancel enrolment and the reasons for cancellation. Students will have the right to appeal the decision as per the *Student Grievance Handling Policy and Procedure*. Students will have 20 working days from the day of notification to appeal.

This is the legal framework for the provision of education services to overseas students and sets out the registration requirements and the ongoing standards for education providers that offer courses to overseas students.

The framework provides a consistent national approach to the registration of education providers so that the quality of the training, and the care of students, remains high.
